- Adaptability & Quick Learning - Ability to quickly learn new skills, adapt to changing work environments, and efficiently handle challenges.

Projects Details

- **Fake News Detection**: Developed a Fake News Stance Detection system to analyze and classify news articles based on their stance towards a given claim. The system helps in identifying misinformation by categorizing articles as agree, disagree, discuss, or unrelated using Natural Language Processing (NLP) and Machine Learning.
- **Hospital Management System** : Developed an HMS to streamline hospital operations, manage patient records, and facilitate communication between healthcare professionals. The system includes more features.
- **Portfolio Website** (HTML, CSS) – A personal website showcasing your skills and projects.
- **E-commerce Website** (React.js) – A basic online shopping platform with product listing and cart functionality.
